## Improve Safety for Everyone with Tablets

We believe your team should have access to the information they need at the moment they need it. With the Tablet add-on for EZRouting, your drivers have a valuable tool for enhancing personal and student safety through:

- ☑ Better turn-by-turn voice navigation

- ☑ GPS-enabled emergency communications

- ☑ Reliable, accessible route storage

- ☑ Real-time parent notifications and customizable geofence alerts

About TransAct

For more than 25 years, TransAct has dedicated itself to providing K-12 districts and state departments of education with software solutions that help them streamline their operations, more efficiently meet state and federal requirements, and more safely and effectively serve their students.

Together, our cloud-based routing, field trips, and GPS tablet solutions provide a complete, user-friendly but intelligent system that frees your team to focus on student safety, driver retention, and day-to-day operations instead of managing software. Visit us at www.transact.com to learn more about how we can simplify your routing and trip management processes.
